Experience

Senior Frontend Engineer

Disney Streaming · Contract · Remote

Dec 2025 - Present

Senior Frontend Engineer at Disney Streaming

Part of the Transactions & Payments team, contributing to payment flows, checkout, and billing experiences for Disney's streaming products using React and Next.js.

- Develop and maintain payment, checkout, and billing flows using React and Next.js.
- Work with the BFF (Node.js) to integrate frontend functionality with backend services.
- Develop and maintain end-to-end tests with Playwright, along with unit tests with Jest.
- Contribute to technical discussions and engineering decisions within the team.
- Collaborate with Product, Design, and QA teams to plan and deliver features.
- Conduct code reviews to uphold code quality and best practices.
- Contribute to monitoring and troubleshooting production issues.
- Use AI across the entire development lifecycle — from understanding and breaking down tickets and exploring the codebase to implementation, testing, debugging, and pull requests.
